## Last Drawing Thursday Night

The last drawing of the Christmas shopping season will be held at 7:30 p. m. Thursday with \$125 in prizes. First prize is \$100, second is \$15 and third is \$10.

Tickets for the drawing may be obtained from any participating merchant at the rate of one for each \$1 purchase with a limit of 300 tickets for any one purchase.

Many of the stores in Canyon will remain open following the drawing until 9 p. m. Many stores will also be open until 9 p. m. on Friday, Saturday, Monday and Tuesday nights.

The drawing will be held at the bandstand on the courthouse square. Winners must be present to obtain the prizes.

## 32 Attend School On Income Tax

Thirty-two persons attended a school on income tax for farmers last Wednesday at the Farm Bureau building, according to John Brazill, county agent.

This one-day school was conducted by J. T. Logan of the Internal Revenue Service and Cecil Parker, formerly of Texas A&M. Some of the new amendments to the income tax code were explained at the school.

Tax guides will be released through the county agent's office in the near future, Brazill said.

## Last Rites Held For Montgomery

Funeral services for Flake Montgomery of Happy were held at 2 p. m. yesterday in the Warren-LaGrone Funeral Chapel. Mr. Montgomery, a car dealer, died Sunday in Neblett Hospital, where he had been a patient for two weeks.

The Rev. Walter C. Hadley, pastor of the Happy Methodist Church, officiated. Burial in Dreamland Cemetery was under the direction of Warren-LaGrone. Pallbearers were John Butler, T. O. Miller, Raymond Hurst, True Burrison, Roy Smith and Floyd Swearingen.

A World War II veteran, he was born Oct. 19, 1904, in Hereford and had lived in this area most of his life.

He is survived by his mother, Mrs. Mary Montgomery of Happy and a sister, Mrs. Tony Burrison of Silverton.

## WT Christmas Begins Saturday

Observance of the Christmas holidays start Saturday for West Texas State College students, who will be given a two-weeks respite from classes.

The holidays officially start Saturday at the close of classes, and end at 8 a. m. Jan. 5. When students return to the campus they will have only two weeks of classes before the start of final examinations, Jan. 19.

Registration for the second semester will open Jan. 27, with enrollment to be in the Student Union Building and cafeteria. Only a short Easter holiday will be observed during the spring term.

## Cindy Gruner Ready for Christmas With Not One, But Two, Trees

By ANNELLE DUGAN

Christmas may be only eight days away, but Cindy Gruner is set for it. She has a Christmas tree—two in fact, and she made them both.

One is a tree of nylon net and tree ornaments on a base of chicken wire, and the other is felt place mat. Both trees originated in Cindy's 4-H Club work and have started her on more Christmas projects, including the making of a wreath for the Gruner front door.

The daughter of Mr. and Mrs. Forrest Gruner, the youngster made the first tree after seeing Mrs. Mona K. Hildreth, county home demonstration agent, make one.

A 12"x18" piece of chicken wire with one-inch mesh was shaped into a cone, forming the base of the tree. Nylon net was cut into four-inch squares and the centers of four squares were stapled together to make a floral-like grouping, which was tied onto the wire, hiding the base cone. Christmas tree balls were tied onto the cone for decorations.

Cindy's first tree was green net with gold balls, and now she is

working on a white and pink one. She estimates that it took between one and one-half and two yards of 72-inch net for her first tree.

For a base, Cindy covered cardboard with cotton and sprinkled it with glitter.

The second tree, also a 4-H project, is a felt place mat decorated with pipe cleaners shaped to canes and stapled onto the branch tips of the Christmas tree.

Cindy, who joined 4-H last January, got the pattern for the tree from Mrs. Hildreth.

Her success in the other projects led her to try one of her own. She painted several six-ounce paper cups with silver tempera and hung small balls of various colors in the upside-down cups, forming bells. She cut an eight-inch cardboard circle, removed the center and decorated it with evergreens from the Gruners' trees.

She hung the bells and a large bow of red ribbon over the evergreen. A coat hanger on the back of the cardboard completed the wreath.

Her other projects included making a gift for her grandmother. She is in the fifth grade.

Santa Claus is coming to Canyon this week and next so that children of the trade area can talk with him and let him know what they want for Christmas. He has asked the Chamber of Commerce to set up a toy shop for him on the southwest corner of the square, and he will be there beginning at 7:30 p. m. on the nights of Dec. 20, 22 and 23, Saturday, Monday

and Tuesday. While the children are visiting with Santa, their parents can shop in many of the stores which will be staying open until about 9 p. m. Santa's schedule calls for him to leave Canyon sometime between 8:30 and 9 each of the three nights.

## Churches Plan Christmas Services

Caroling parties, original skits and special music will highlight the observance of Christmas by Canyon churches.

A skit, "The Great Book," will be presented at 7:30 tonight by the children of the Calvary Baptist Church at the church. The presentation, to be narrated by Gerald Free, traces the lineage of Christ from Adam and Eve through the Christmas story. Mrs. R. C. Campsey and Mrs. Leon Walker are in charge of the program.

Following the skit, the choir, under the direction of Bill Lightsey, will sing.

High Mass will be sung at 12 midnight Christmas eve and 10:30 a. m. Christmas Day at St. Ann's Catholic Church. St. Mary's Catho-

lic Church at Umbarger will observe Christmas with the singing of High Mass at midnight Christmas eve and at 8 and 10 a. m. Christmas Day.

"Birth of The Saviour," a 16-millimeter color film, will be shown at the First Methodist Church at Sunday evening's regular service. The congregation will divide into groups and sing carols to shut-ins before returning to the church for a social hour.

The junior choir will sing at the morning service, according to the Rev. H. Doyle Ragle, pastor.

The Rev. Dale M. Harter will deliver a Christmas sermon entitled "A Star in Their Eyes," based on the Wise Men's search for the Christ child, to the congregation of the First Christian Church on Sunday morning. Louise Higdon will sing "Jesus, Jesus, Rest Your Head," and special music will be given by the choir.

"God Loved—God Gave" will be presented at 7:30 p. m. Sunday by the children and young people's

departments, under the direction of Mrs. Sam Jolly. Assisting will be Mrs. Lee Roy Moreland, Mrs. F. M. Blackburn, Mrs. Dean Cook, Mrs. H. M. Johnson and the Rev. Harter. A special offering will be taken for an orphan's home and a home for the aged.

Parts of Handel's "Messiah" will be sung in the Sunday morning services at the First Presbyterian Church. Soloists will be Mrs. Dona Wilson, Mrs. Wanda Winn, Bruce Winn and Gene Murray. Royal Brantley is director, and Mrs. Lee

## Membership Group To Meet Tomorrow

The finance and membership committee of the Randall County Junior Livestock Association will meet in a special session called by J. O. Parker, chairman, at 7:30 tomorrow night at Parker's home.

The committee will plan the membership drive for the association which will sponsor the Randall County Junior Livestock Show at the City Barn Jan. 23-24.

Members of the committee are George Schaeffer, Don Standley, B. E. McCormick, Bob Lindsey Jr., Milton Morris, Earl Burtz, C. V. Conatser, H. R. Hungate, Roscoe Richardson, Tommy Triplett, L. T. Campbell, Dr. J. L. Markham and T. A. Black.

Meeting with the group will be James I. Fletcher, Cristler Crain and Bruce Winn, association officers, and John J. Cook, general superintendent of the show.

## Lions Fete Ladies at Christmas Program

Canyon Lions entertained their Lionesses and guests Monday evening at "Ladies Night." Special guests of the club were Mr. and Mrs. J. B. Roberts. He is president of the Rotary club.

The program consisted of singing several Christmas carols and novelty numbers. Leading the program was Lion Art Brewer, assisted by several members of the Baptist Student Union.

Arrangements were made by Lion Emmitt Smith and Lion Bernard Warren. Favors were given to the women.

## School Board Picks One-Story Building for New High School

The school board decided on a one-story building for the new high school at a meeting Tuesday night. Architects Bill Townes and Jim Bailey presented a schematic sketch which the board approved.

The plan showed classrooms built in enclosed units. The plot plan showed that as many as four classroom units could be built around a central cafeteria-auditorium-gymnasium area. The classroom units and the central unit would be connected by covered walkways.

Only one classroom unit will be built at the present. A small sepa-

rate building will be constructed away from the classroom unit for the vocational shops and agriculture classes.

Townes told the board that the sketch he showed was not a finished drawing, but a plan of how the school would be laid out.

In other action, the board endorsed Herb Willborn of Amarillo to replace the late Dick Bivins on the state board of education. Willborn is a member of the Amarillo school board now.

The board also decided to stop paying \$25 per month as a retainer fee to the Witherspoon law firm in Hereford. The retainer has been paid for the past several years, but the board decided that it should try a plan of paying for legal services as needed.

## Eagles Dropped In Second Round

The Canyon Eagles lost out in the second round of the Hereford Tournament last weekend to Hereford, the team that went on to win the championship.

The high school teams, both boys and girls, will play in the Panhandle Tournament beginning Thursday. The girls team is pitted against Clarendon at 6 p. m. Thursday. The boys team is scheduled to play against White Deer at noon Friday.

In the first game of the Hereford Tournament, Canyon beat Olton 62-55 with Frank Davis leading scoring for the Eagles with 17 points. In the second round, Hereford beat Canyon 93-47. Larry Brotherton led the Eagle scoring with 14 points.

In the third round, Hereford beat Palo Duro of Amarillo for the championship of the tourney.

## Eaglettes Lose Twice in Week

The Canyon Eaglette B-team was defeated 58-24 last Thursday at White Deer. Kathy Hinger and Shannon Downing both made 10 points for Canyon. The A-team was defeated 60-24 by White Deer. Patricia Downing led scoring with 12 points.

Tuesday night the A-team lost 52-50 to Nazareth with Marilyn Winn making 25 points to be the leading scorer. The B-team was dumped 50-18. Kathy Hinger scored 5 points for the Eaglettes.

The Eaglettes will be in the Panhandle Tournament Thursday.

## Canyonite Named To Amarillo Board

The Rev. Strauss Atkinson, pastor of the First Baptist Church, was elected last week to the board of directors of the Amarillo YMCA to serve a three-year term.

Other new directors include Robert Ashworth, J. Harold Dunn, Kenneth Grenewald, Lawrence Hagy, John Heetland, Arthur Glover, Gen. William L. Lee, Bob Mills, Dr. Joseph Ray, Lon Watson and S. B. Whittenburg.

## County Experiments in Crime and Punishment With Five Students

Five students caught stealing auto accessories by Canyon city police are the subjects of an experiment in crime and punishment in Randall County.

The students, four at West Texas State and one at an Amarillo business school, are spending their days at school and their nights and weekends in jail. And they stay on that schedule until their Christmas vacation starts.

They were caught on Dec. 4 while stealing accessories, and had in their possession quite a few more, mostly hub caps and outside rear view mirrors. The authorities figured that the students could really be considered "good" citizens, and needed some rehabilitation rather than dire punishment.

If they had been given jail sentences, and kept in the jail, they would have lost enough time from their school work that their work of the first three months of the semester would be lost. And it is

questionable if they would be allowed to return to college. A fine would probably have punished their parents more than the students.

So this plan was hit upon. The students leave the jail early each morning and go to their classes. Within 30 minutes of their last class, the report in at the county jail. The parents of each of the students were notified and gave their consent for the plan.

(However, one parent must not have taken the plan seriously. He came to Canyon last weekend with a request to take his son home for the weekend with the promise to have the boy back early Monday morning. The request was denied.) If the experiment proves successful, the five students will have been "re-habilitated," an example will have been set for others who might be tempted to steal accessories or other small items, and Randall County will have a punishment to fit a crime.

## College Offers New Degree Plan; Education Department Renamed

Approval of a new degree program and for the redesignation of the education department as "Department of Education and Psychology" has been granted West Texas State College by the Texas Commission on Higher Education.

President James P. Cornette said that approval of the college's requests were granted at a meeting in Austin Monday.

The new name for the education department will become effective with the fall term in 1959. Dr. Cornette said. A total of seven courses, or 21 semester hours, in psychology has been offered in the education department, and two ad-

ditional courses will be added. Students will be able to earn a first minor of 18 hours, or a second minor of 12 hours in psychology, Dr. Cornette said.

Dr. J. B. Roberts, head of the education department, will continue as head of the newly designated department. The new courses will be "Child Psychology" and "Introduction to Experimental Psychology."

The new degree program will be a major in international relations, an inter-departmental major under the supervision of the department of economics-government-sociology. It will be a bachelor of arts pro-

gram, with two years of a foreign language required.

The program will require 54 semester hours, with 18 hours in government, 9 hours in economics, 3 hours in geography, 12 hours in history, and 12 hours of directed advanced electives in one of three subject areas. These include Latin America, Asia and the Far East, and Europe and the Near East.

Purpose of the major field "is to provide students with a coordinated and well rounded series of courses in the field of international relations in line with public and student interest in international affairs."

## See Any Changes in the List?

A little more than three years ago, a group of men got together and listed 20 items that made Canyon a good place to live. The list was of the sort of things that could be used in inviting people to

## Needed Legislation

Each time the state legislature convenes, the lobbyists gather round to promote new laws or to keep them from getting on the books. The newspapers of the state have an organization that does some lobbying, the Texas Press Association.

Usually our lobbying organization is working to promote better government, the same as the editorial pages of the papers of the state are doing. For the coming session, we have four bills we would like to get passed. All four would tend to make our government better from the state level down.

The first is an anti-secrecy bill which would prohibit closed and secret sessions of the governmental bodies, boards and agencies from precincts to the state capitol. The present law does not prohibit secret meetings and it is time for the State of Texas to join the other states in the immediate passage of an anti-secrecy bill.

Contrary to some people's ideas, the newspapers are not pushing this bill in order to embarrass our public officials. Not at all. It would work in the opposite direction. If all meetings were open, the people would have an opportunity to know better what their public officials are doing, and would be in position to give intelligent support. The bill would have the side effect of making it harder for scoundrels to get away with illegal actions while in office.

To make sure the law has teeth, the proposed bill suggests a fine of \$100 to \$1,000 upon conviction, and guilt of misconduct in office.

The second bill is also an anti-secrecy bill, this one making it a crime to refuse public examination of the records which are normally open for public inspection. The most flagrant example of such refusal has been in Duval County in the past years, when reporters from the Alice and Corpus Christi newspapers have been literally thrown out of the courthouse for asking to see public records.

The advantages of this bill are obvious, we believe.

The third would make it a felony with a penitentiary sentence of three to five years for anyone who unlawfully takes or carries away any public record from the place where it is normally kept. Corrupt persons have been known to destroy records that would incriminate them, and this bill would make it possible for those people to be punished.

The fourth bill would provide for removal from office of any official who shall refuse to testify on the grounds of self incrimination. It would not deny the official the privilege of invoking the Fifth Amendment as an individual or private citizen, but it would deprive him of the right to hide behind the Fifth Amendment in refusing to answer questions about his official conduct in public office. It is believed that refusal to answer questions about official misconduct in public office is inconsistent with the

move here to live, even though they might work somewhere else.

After this length of time, let's look at the list and see if any have been changed—and if the change is good for Canyon, or bad.

1. Good water and a sewage plant large enough for 12,000.

2. Best educational plant in the Panhandle.

3. Thirteen religious denominations.

4. Hospital and eight doctors.

5. City park and outdoor swimming pool.

6. Most paving of any city of similar size.

7. Recreational center of the Panhandle with Palo Duro Park and Buffalo Lake.

8. Located on two major highways, soon to become an expressway to the north and four-lane divided to south and west.

9. Cool nights.

10. Clean city.

11. Low fire insurance rates.

12. Low taxes.

13. The best class of people.

14. Low crime rate.

15. High dairy income.

16. Best topsoil.

17. Cattle and farming community.

18. County seat.

19. No segregation problems.

20. Good trade area potential, with good access from city, suburbs and farms.

We can see no changes in the first 11 items. The 12th is not true any longer, what with the recent increase in city taxes and next year's planned increase in school taxes to pay for the new building.

Nos. 13 through 17 still hold, but if certain groups in Amarillo have their way, No. 18 will go by the boards in no time at all. The other two are still the same.

Naturally, many other things could have been put on the list—intangibles like the joy of living in a small town and the value of raising children in a smaller town, the vast amount of good, professional quality entertainment that we have available in Canyon, and any number of other qualities.

If Canyon is to grow rather than stagnate, the citizens must keep this list in mind, making sure that it does not get smaller, and working to make the list grow larger.

## No Help at All

We have had no suggestions from our readers about goals for which the people of the Panhandle can work in the coming year. The Amarillo newspapers have asked for our help, and we are asking yours. If you have any ideas, let us know, will you?

honor and trust of public office.

None of these bills would make our government or our officials more honest, it is true. But if all four were passed, they would give the people a better chance to protect themselves against public officials who are dishonest.

We commend the four bills to the legislature, and especially to Rep. Ted Springer and Senator Grady Hazlewood.

## What Our Neighbors Say ...

## Scissor Snippings

Ben Ezell in the Canadian Record: Are you an "avoidist?"

A network TV interview show recently featured a Greenwich Village character who claimed to be the originator of a new cult of "Avoidists"—a group dedicated to the practice of "Avoidism" which is carried out, as this member of the "beat generation" explained it, by avoiding (or ignoring) everything controversial or unpleasant.

This character hasn't invented anything new ... he's just put a name to a trend that is plaguing this country. We are becoming a nation of "avoidists."

A study group up in a local church, for example, encountered the problem of "The Controversial Subject" the other day ... and solved it by Avoidism. The study course prepared for next year by the national church council, it seems, covered a couple of subjects (one of them the United Nations) on which some members disagreed ... so to avoid any discussion of the matter, it was decided to reject the entire study course.

This isn't by any means unusual. Controversial subjects are generally taboo in civic clubs as well as social groups, in schools and in

churches, among Lions and Rotarians, in Chamber of Commerce meetings and around the coffee counters ... and even, in too many cases, on the editorial pages of newspapers.

And, human nature being what it is, this leaves precious few subjects for discussion in any gathering of two or more people.

We are worshipers of "Harmony" ... and we seek to achieve it through "avoidism."

What we do achieve through the avoidance of everything controversial ... and mistake for the appearance of harmony ... is often sheer boredom.

What we do not achieve is any solution for the problems that beset us.

Avoiding the problem doesn't make it go away. Discussing it may not make it go away either, but intelligent discussion among people of differing views may possibly solve it, can probably modify it, or at the very least lead to a mutual understanding of it.

The fact that a subject is considered "controversial" should not mean that it can't be discussed ... and debated ... without creating a controversy.

In a widely-quoted editorial, a

Panhandle editor recently called for "an angry man" to lead this nation to a solution of its problems. A greater need, we think, is for many men ... and women ... who can discuss our problems and seek a solution without anger, but with tolerance and understanding of the views of their fellow citizens.

We need an end to avoidism in our responsible civic, church, and social organization ... for these are the groups to which we should be able to look for leadership.

We need more open debates ... and fewer closed minds.

The ostrich is a notable practitioner of Avoidism ... he buries his head in the sand to avoid facing trouble, but that doesn't keep him from being kicked in the rear.

I GIVE YOU  
TEXAS  
By  
BOYCE HOUSE

Young man, you say you represent the Daily Gazette and that, since this is the 100th anniversary of the birth of Theodore Roosevelt, you want to interview me on my recollections of that great American?

Well, sir, you have come to the right man. I'll be glad to give your readers the benefit of my first-hand knowledge of Teddy, as I used to call him.

Teddy Roosevelt was the first president that I can remember. I was living in Brinkley, Ark., and it was in 1904. Roosevelt was running for re-election. There was a brand of chewing gum that had, attached to each package, a celluloid button. You could choose a Roosevelt button or one with the picture of Alton B. Parker. (I had heard of T. R. but not of Parker—and judging from the election returns outside the Solid South, neither had many of the voters, either).

So I selected a Roosevelt button but soon found that I was the only supporter that he had in the entire town of Brinkley, Ark. So, deciding to bow to public sentiment, I returned to the store and the merchant let me trade the button back for a Parker one.

Now my next first-hand recollection of Roosevelt was a review of a book of his he wrote on his experiences in the Spanish-American war. Come to think of it, I read the review somewhat later than 1904 but having proceeded this far, I will go on. "Mr. Dooley," the nation's most popular philosopher, said, in his review, that, after reading Roosevelt's book, he thought the author should have called it "Alone in Cuba."

I guess actually that my second

Kindergarten Gives  
Christmas Program

The kindergarten at the First Methodist Church, under the direction of Mrs. K. E. Hines and Mrs. H. J. Price, presented a Christmas program at 7:30 p. m. Friday for their parents and guests.

The program consisted of 21 nursery rhymes and songs, two prayers, two Christmas carols and a number by a rhythm band.

Taking part were Rose Sharon Hanig, Rena Gayle Hillier, Denny Bickers, Mary Jayne Wallace, Mike Hines, Reechia Martin, Chi Chi Harper, Ben Peckenpaugh, Marsha Hager, Judy Farmer.

Johnny Burgdorf, Patty Price, Billy Lee, Rhonda Hill, Becky Haley, Bob Bullock, Linda Foster, Frances Harbour, Sheila Payne, Rickie Hales, Vince Wirt, Connie Ormsby, Beth Teague, Bruce Cramer, Emily Davis, Kathy Gist, Sandy Cook, Shayne Wooten, all of Canyon and Bobby Williamson of Amarillo.

Every day is pay day for the man who enjoys his chosen work.

The only person who saves time is the one who spends it well.

recollection of Roosevelt was a song we used to sing about the president and Booker T. Washington, "Won't you have tea with me, under the White House tree?"

Then I recall that my parents, my two little sisters and I were in Little Rock the day that Roosevelt was there. (This was, I think, in 1905.) We went to the railroad station in the hope of catching a glimpse of him. We didn't and I was disappointed but my father saved the situation by pointing out a coach as the private car of the President of the United States.

That same year, we went to the St. Louis World's Fair. Roosevelt had been there only the day before, so again he and I were prevented by fate from meeting. I did, however, see a statue of him, made of butter.

I believe those are all of my personal recollections of the man who discovered the River of Doubt in South America, had a bear named for him, hunted wolves in Oklahoma, ran a ranch in the Dakota badlands, commanded the Rough Riders, advocated the strenuous life, made "De-e-lighted" his own trade mark, founded the Bull Moose party and was, without question, the most colorful, exuberant, dynamic individual who ever occupied the White House.

Never mind thanking me, young man. I feel it is the obligation of us old-timers to pass on, for the benefit of posterity, our first-hand recollections of the great men we have known.

Cunningham Listed  
In H-SU Who's Who

Melvin Cunningham, Canyon junior at Hardin-Simmons University, has been named a member of the "Who's Who in American Universities and Colleges."

Ten juniors and 15 seniors were approved by the national headquarters of the organization. Students are selected on the basis of scholarship, leadership, character and service.

The son of Mr. and Mrs. A. M. Cunningham of Canyon, he is a member of the varsity basketball team at H-SU.

As Christmas lights went on after Thanksgiving, Winter caught a pass from Autumn. Shops and shoppers swung into that stepped-up rhythm that lasts only a few fleeting weeks in December. With good harvests, good health, and good spirits, folks began thronging into stores, bearing away armloads of gaily wrapped packages both short and tall, round and oblong.

In addition to the usual flurry of gift-buying, however, this season promises a rich undertone of deeper Christian meaning. It is reflected in little ways. There is less pushing, less tenseness among shoppers. Parents take time to enjoy the honest pleasure of a child examining a new toy at a counter. Drivers behind the wheels of automobiles are more considerate, both of other drivers and of pedestrians too lost in holiday planning to watch out for traffic.

Families who expect to be together for Christmas accept their good fortune. At the same time, they remember the plight of the neighbor with recent sadness, of the fellow who is far away from home. Parents who are prosperous give thanks for the special blessings that enable them to bring up their own children in an atmosphere of happiness and plenty. But they know these blessings are special.

In a world filled with scientific wonders — and sometimes frightening possibilities — the warm, tender human relations have taken on added beauty. And as the physical world shrinks under new discoveries, man's feeling of kinship with like-minded human beings in other lands increases. Who knows? The Christmas season of 1958 may begin a revival of that ancient Christmas message. On earth peace, good will toward men.

If you have a problem to solve, remember that hard work is the best solvent of all.

Industry in Austin County is the seat of the oldest German settlement in Texas. It was founded in 1842.

Poultry was first introduced to Texas by the early Spanish explorers and later by Anglo-American colonists.

**Coke-Whitworth Vows Exchanged In Joseph A. Hill Chapel Recently**

Bob Wear, minister of the Central Church of Christ, officiated at the double ring ceremony uniting Mary Louise Coke, daughter of Mrs. John M. Coke of Canyon and the late John M. Coke, and Alton R. Whitworth of Roscoe, son of Mr. and Mrs. A. T. Whitworth of Roscoe, Nov. 28 in the Joseph A. Hill Chapel on the West Texas State College campus.

Seven branch candelabra holding white tapers flanked the altar, decorated with floor-length folds of white satin between a sunburst arrangement of pink gladioli and snowball chrysanthemums.

The organist, Mrs. Glenn Dowlen, played traditional wedding selections and accompanied Mrs. Clayton Graef who sang "Because" and "The Lord's Prayer."

The bride's sister, Elizabeth Coke, who served as maid of honor, wore a street length autumn green velvet dress and a rust pheasant headband. She carried a bouquet of autumn rose mums tied with mauve and conamon ribbon. Candelighter was Barbara Coke, sister of the bride.

Best man was Ted Robb of Dimmitt. Usher was Ted Godfrey of Dimmitt.

James L. Coke, an uncle of the bride, gave her in marriage. She wore a waltz length gown of peau de soie and Chantilly lace with long tapered sleeves. The scalloped Chantilly lace overskirt at each side complimented a front skirt panel of peau de soie. Hand

clipped lace applique enhanced with seed pearls were featured around the bateau neckline. Her veil of bridal illusion was caught in a tiara studded with seed pearls and iridescent sequins. She carried a bouquet of white roses and white satin streamers.

The bride chose a beige suit with beige and brown accessories for her wedding trip.

Immediately following the ceremony, a reception was held in the Church of Christ Bible Chair. Serving were Rita McIlroy, cousin of the bride, and Barbara Whitworth, sister of the bridegroom. Janet Buckley, cousin of the bride, registered guests.

The bride is a Dimmitt High School graduate and attended West Texas State College. Also a graduate of Dimmitt High School, the bridegroom is employed by the Automatic Electric Company.

They will make their home in Brady.

We wish to thank all our friends and loved ones for the lovely gifts, flowers, cards and good wishes received on the occasion of our Golden Wedding Anniversary. You have helped to make this one of the most eventful days of our lives.  
Mr. and Mrs. I. H. Hollabaugh

WE WANT to express our sincere thanks to the doctors and nurses at Northwest Texas Hospital, our many friends and Scout Troop 66 for their kindnesses after my recent accident. We appreciate your prayers and your visits at the hospital and at home. We want to thank all who sent flowers and cards, telephoned, helped with the house cleaning and laundry and assisted in other ways. We also appreciate very much the Red Cross chapters in Amarillo and Canyon getting an emergency leave and extension of leave for our son Leroy from the US Navy. May God bless each one of you.

## Uhlman Elevator Falls Tuesday

An Uhlmann Elevator tower at Umbarger collapsed just before noon Tuesday and dumped 18,000 bushels of grain on the ground. The million-bushel tower was a total loss, but the grain can be salvaged.

The tower was one of nine identical concrete structures and was nine years old.

Dean Adams, who works at the elevator, was standing nearby when the tower collapsed. He said the north side gave way first and it collapsed with the concrete partially buried under the grain.

The cause of the collapse is not known, although Adams thought there might have been an explosion because of the amount of dust flying in the air. He said he heard no blast, but only the rumble of the falling concrete.

George Brockman is manager of the elevator.

Some of the films shown on TV are too old to stay up that late.

## NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS  
OF THE 18TH CONGRESSIONAL DISTRICT

### Rocket Traffic Signals

It is likely that nothing in our lifetime has caught the imagination of all the people of the world as has the world's entry into the space age. This imagination has manifested itself in many ways in every age group of our society and, inevitably, in the building, testing and firing of rockets by amateur and professional scientists.

This is a wonderful thing, I believe, and is a demonstration of the old adage, "we learn to do by doing." Like everything else, however, there are certain hazards in these practices, and it is recognized that precautions must be taken to protect life and limb.

For this reason the Civil Aeronautics Board is considering proposed regulations for the operation of rockets and missiles. It is pointed out that these proposals stem from the increasing number of instances of potential hazards to aircraft rather than any determination to destroy or unduly suppress any scientific endeavor, since the educational benefits to be derived from an organized experimental rocketry program are of great importance to all the nation.

CAB points out that launchings of missiles have been conducted within the confines of airport traffic patterns, civil airways, and in such manner that they have penetrated other controlled air space areas.

They have occurred at times when weather conditions prevented observation of aircraft in flight, thus creating a hazard to planes operating under instrument flight conditions.

Certainly, the continued and ever increasing use of air space will dictate extremely efficient and pre-

cise use of this space. The Board's concern with these potential dangers has been shared by state and municipal authorities who have, in many instances, enacted ordinances providing that no rocket, other than for military or industrial purposes, shall be fired within the areas of their authority without prior approval and issuance of a permit.

This concern has been enlarged by recent large scale production of rockets which are available to the general public through hobby shops and department stores.

I point out that these regulations are not final and that they may be amended or altered after consideration of views and opinions of citizens all over the country. The initial proposals are, however, these:

That, no rocket or missile shall be fired so as to be at any time at an altitude of more than 500 feet above the surface, unless the site utilized and the firing are approved by the administrator of the Civil Aeronautics Board.

That, no rocket or missile shall be fired from within or into any control zone, or so as to be at any time within five miles of any airport.

It is also pointed out that, in event these proposed regulations are adopted, holders of or applicants for a permit issued by the Administrator of CAB are not relieved of their responsibility to comply with any state or local (police, fire, aviation) ordinance, law or regulation.

The hearing to consider the adoption of these regulations will be conducted by the CAB here in Washington, probably sometime in February. As in all such proposals, interested persons may submit their views so as to reach the CAB Bureau of Safety by January 27, 1959.

The Canyon Study Club was entertained with a progressive dinner Dec. 9.

Appetizer was served in the home of Mrs. Floyd Langford. Rev. Donald G. Price, pastor of the First Presbyterian Church, gave a devotional on "You and Your Church." The group progressed to the

home of Mrs. Dick Dawdy for the main dinner. The initiation of nine new members and club business were conducted in the home of Mrs. Billy Cunningham, where dessert was served.

Members brought Christmas gifts to be distributed to needy children.

A political plank has to be wide enough for some side-stepping.

Good luck must be met halfway — bad luck seems to chase you.

By VERN SANFORD  
Texas Press Association

Foreshadowing many hours of debate in the next Legislative session is the steady build-up of proposals and counter-proposals for improving public schools.

Texas State Teachers Association has voted to push a 19-point Legislative program. TSTA will go along on most of the Hale-Aikin Study Committee's recommendations, though its own program omits a few H-A proposals and is lukewarm on others.

Most notable difference is that TSTA calls for larger teacher salary raises. Present minimum starting salary is \$3,204. Hale-Aikin Committee recommends hiking this to \$3,800. TSTA is asking for \$4,000 for bachelor's degree holders, \$4,200 for those with a master's degree.

TSTA's salary increases would cost some \$10,000,000 to \$15,000,000 a year more than the Hale-Aikin plan. Overall, enactment of the Hale-Aikin school improvement plan would cost the state an estimated \$110,000,000 a year more than is now being spent.

Other planks in the teachers' legislative platform are specific changes to expand or enrich school programs — driver education, special programs for gifted children,

more funds for small schools, etc. TSTA approved the Hale-Aikin proposal for lengthening the school year, but indicated it would not go all-out for it.

Because they call for new spending at a time when the state already is in the red, no one expects smooth sailing for the school proposals. Governor Daniel warned teachers that he could not foresee available money for all the program. Many legislators are haunted on the one hand by the need to dig up new money just to keep the state in business and on the other by campaign promises not to vote for certain kinds of new taxes. They're inclined to view new spending plans like smallpox germs.

On the other hand, advocates of school improvement constitute a large and very active group. And all such efforts gained tremendous new leverage when Sputnik I whizzed into orbit.

### For Business Seeking

Texas Industrial Commission is asking the Legislature for a \$100,000-a-year appropriation to be used in attracting new businesses to Texas.

Commission voted not to go into tourist promotion unless asked to by lawmakers.

Proposed budget allocates \$16,500 annually for an executive director's salary and \$75,000 a year for advertising in national publications. All this activity will be brand new to Texas, made possible Nov. 4 when voters removed an 82-year-old constitutional ban against spending state money for advertising.

Commission also announced that it is opposed to any plan of offering temporary local tax exemption as a sort of "prize" to new industries.

### Back To Work

Christmas rush and other gains may bring the number of workers to a new record high in December, according to the Texas Employment Commission.

Settlement of 13 labor-management disputes involving 9,749 workers contributed to the October employment peak of 3,001,400.

December's bright hopes are based on expectation of the usual retail job increases, more employment in cotton processing due to a high per-acre yield, plus gains in manufacturing, transportation and school employment.

### Old Age Rolls Shorter

Number of Texans receiving old age assistance payments dropped during the past year, but Texas still has a greater percentage of its population on state old age pensions than most other states.

State Welfare Department's report to the governor notes that an increase in the number of elderly persons receiving Federal Social Security payments is apparently causing the shrinkage in the state welfare rolls.

Despite this trend, Texas has 33.6 per cent of its 65-and-over population on the state pension rolls compared to a national average of 16.2 per cent. Texas' average payments are lower—\$47.08 per month compared to the national average of \$61.39.

During the past fiscal year the State Welfare Department paid out \$125,353,296 for old age pensions. Of this, 30 per cent was state funds, the rest federal.

### Judicial Review Upheld

Persons unhappy with State Water Board decisions may appeal to the courts, but not for a new trial starting from scratch.

State Supreme Court ruled that appeals from Water Board rulings may be considered only in the light of the evidence presented in the original hearing. In so ruling, the high court invalidated a provision in the water code providing for trial de novo (or anew).

At issue was a Water Board decision denying Southern Canal Co. of Houston permission to take water from the Trinity River. An Austin district judge had ruled that he did not have jurisdiction. Now the case can go back to district court for judicial review under the "substantial evidence" rule.

Effect of the Supreme Court decision could be far-reaching if

applied to appeals from other administrative decisions. Heretofore, trial de novo has applied to appeals from the State Board of Insurance.

### Short Snorts

Jake Jacobsen, Governor Daniel's top assistant, will leave this job Jan. 1 to enter private law practice in Austin. Jacobsen has been a close associate of the governor since the days when Daniel was attorney general.

Texas Employment Commission Chairman S. Perry Brown has been reappointed by the governor for a new six-year term despite protests from labor groups.

U. S. Dept. of Agriculture is recommending a 12 per cent cut in 1959 acreage allotments for spring potatoes in Texas. This would be 7,875 acres for next year compared to 9,000 in 1958.

Texas Heritage Foundation President Paul Wakefield has petitioned President Eisenhower for a full pardon for one of Texas' most famous sons, the late William Sydney Porter, better known as short story writer O. Henry. Porter was convicted in federal court of embezzlement and served a prison term, but Wakefield declared there is "abundant proof of his innocence."

Wayland C. Rivers Jr. has resigned as an assistant to Attorney General Will Wilson and entered private practice in Austin.

Texas draft quota for January will be 359 men, the lowest monthly call since December, 1957. It is to be filled with men who are 22 years or more by Jan. 1, except for volunteers and delinquents who may be younger.

Department of Public Safety has begun the training of 70 new recruits at its Law Enforcement Academy. Graduates will be assigned to the Highway Patrol, Drivers License Patrol and Weight Patrol, all of which are undermanned.

## Don't Be Caught Short When the New Year Comes!

Grain farmers planning to wait until after January 1 to get their grain loans may find themselves in a bind on income tax day, January 15, unless they plan now to get the paper work done ahead of time.

Cooperating with the Randall County ASC office, we advise farmers to do this: Take receipts to the ASC office now, and the ASC office will prepare the loan between now and January 1, and have it ready to issue on the first of January. The ASC office has checked with the Internal Revenue Service and the income can be counted next year because the note is not signed until then.

Don't be caught in the first of the year squeeze. Get quicker service by taking your receipts to the ASC office now.

## Sunday Tea Reveals Engagement Of Charlotte Crain, Eddie Slay

An announcement tea in the home of Mr. and Mrs. Newton Crain Sunday afternoon revealed the engagement of their daughter, Charlotte, to Eddie Slay of Wellington, son of Mr. and Mrs. J. T. Slay of Wellington.

The wedding will be at 7 p. m. Jan. 23 in the home of the bride's grandparents, Mr. and Mrs. A. Y. Bell of Wellington.

In the receiving line were Mrs. Crain, Miss Crain and Mrs. Slay. Miss Crain's corsage was of azalea pink rosebuds with white bells, while the mothers wore corsages

of pink carnations accented by tiny white bells.

Angel rolls, nuts, coffee and spiced tea were served. The centerpiece was a pink sleigh holding bride and groom figures and an arrangement of pink roses and carnations. Pink reindeer pulled the sleigh, which trailed streamers announcing the wedding date.

Serving were Mrs. Wayland Angel, Mrs. Jim Copeland, and Mrs. Archie Copeland.

Registering the guests were Mrs. Willis Emery, Mrs. Larry Griffin and Dorothy Jane Crain. Mrs. Joe

## Former Canyon Woman in Article

The A. V. Peterson and Edwin L. LaGrange families in the Rio Grande valley were featured in a presentation of the Master Farm Families of Texas in an article in the Progressive Farmer. Mrs. Peterson is the former Dorothy Fay Rusk.

The two families are operators and part owners of the 1,715 acre Suxent Farms in the valley, with cotton, vegetables, avocados, grapes and strawberries as main crops. Peterson and LaGrange received a joint award as outstanding conservation farmers in 1957 in Starr County.

The Peterson family, with their three sons, and the LaGrange family with two sons and a daughter, work as a close-knit team in farming and family living, according to the article.

Our hope for tomorrow is in the hands of the nation's school teachers today.

### Randall Traffic Deaths Drop 50%

In advance of the heavy holiday traffic expected on Texas highways, the Department of Public Safety has announced that traffic deaths have decreased 10 per cent under last year and asked that motorists help push the decrease even lower.

The death rate in Region 5, which includes the Amarillo district, has dropped 10.7 per cent for the first 10 months of this year under the first 10 of last year. Randall County's record is even better, a drop of 50 per cent.

In this county through October last year, there had been eight deaths. For the same period this year, there have been four deaths.

The record of Region 5 includes 241 deaths this year and 270 last year. Of the 60 counties in the region, 25 showed an increase this year of 74 deaths and 35 showed a decrease of 103 deaths.

The goal for Texas set by the governor's Traffic Safety Commission is a decrease of 10 per cent in traffic deaths in the state in 1958.

THE STATE OF TEXAS  
TO: Kenneth Arthur Edmund Bath, Defendant, Greeting:  
You are hereby commanded to appear before the Honorable 47th District Court in and for Randall County at the Court House thereof, in Canyon, Texas, at or before 10 o'clock A.M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 26th day of January A.D. 1959, then and there to answer by filing a written answer to the Plaintiff's Petition filed in said Court, on the 8th day of November A.D. 1958, in this cause numbered 3650 on the docket of said court and styled Margaret Mary Bath, Plaintiff, vs. Kenneth Arthur Edmund Bath, Defendant.

A brief statement of the nature of this suit is as follows, to-wit: Plaintiff seeks a divorce, alleging cruel treatment on the part of Defendant, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Canyon, Texas, this 13th day of December A.D. 1958.

Attest:  
MAVIS HILL, Clerk,  
47th District Court in and for Randall County, Texas  
By: L. Johnigan, Deputy

### Corps Recruiter Comes Thursday

A Marine Corps recruiting sergeant will be in Canyon Thursday to interview applicants for enlistment. He will be located at the courthouse from 9 to 11 a. m.

He has announced that the Marine Corps is currently offering enlistment for "Marine Corps Aviation duty only." When a young man is qualified and enlists for this program he is assured of spending his entire enlistment period in aviation.

### EASY TO TAKE

Too many people seem to prefer a religion that is not too hard on the conscience.

### NO FLOWERS

It may be true that hard work is highly respectable, but just try and make it popular.

There is evidence that the pecan Texas' state tree — grew in this region in prehistoric times.

### French Immigrants Visit E. W. Glenns

The second French family sponsored for immigration to the United States by E. W. Glenn visited with Mr. and Mrs. Glenn last week at their home near Palo Duro Canyon.

The family, that of Richard L. Glenn, arrived in the United States early in December, and are touring the country before settling down. Several years ago, Glenn sponsored

the Kenneth W. Glenn family. Both of the Frenchmen are nephews of E. W. Glenn.

Richard L. Glenn left France in World War II, joined the British Royal Air Force and served until this year. It is expected that he and his family will live in the Los Angeles area, where the Kenneth W. Glenn family is living.

Texas has not been without cattle since 1690, when the Spanish brought stock for the first mission.

## Offer Students Essay Contest

The Randall-Potter Soil Conservation District is joining with the Fort Worth Press and 25 co-sponsors in offering the Press' 14th annual "Save the Soil and Save Texas" essay contest for students in the Canyon, Umbarger and Bushland public schools.

The contest is run on a regional basis, and in last year's contest, Canyon's schools furnished three winners out of 10 in Region 1, composed of 51 counties in the Panhandle and South Plains.

Last year's winners were Janet Taylor, daughter of Mr. and Mrs. Jack Taylor, second; John Wheelock, son of Mr. and Mrs. R. D. Wheelock, third; and Rhett Plank, son of Mr. and Mrs. John Plank, ninth.

Deadline for entries in the contest is Feb. 15. Contest rules have been furnished the three schools.

The Board of Supervisors is composed of J. W. Spencer, C. V. Conatser, R. C. Sampson Jr., Frank Begert and Marshall Rockwell Jr.

## Crager Clinics All-State Band

Dr. Ted Crager, head of the West Texas State College music department, was clinician and conductor for all-state and all-regional band activities last week in Pampa.

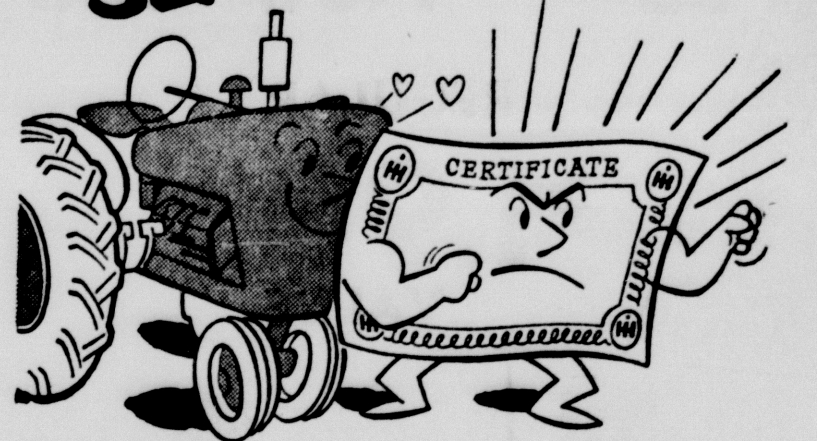

Try-outs were held Friday and Saturday for about 450 high school bandmen for places in the Inter-scholastic League's all-state and all-regional bands.

Dr. Crager and A. Clyde Roller, director of the Amarillo Symphony conducted two bands in concert Saturday night in the Pampa High School field house.
